

HRMTEC succeed unmatched reduction of printing costs with ribbon printing system

Ribbon printing system of HRMTEC reduces printing costs to an absolute minimum, with unsurpassed printing quality

Wettswil – August 24, 2016

HRMTEC succeed in reducing the ribbon printing system printing costs to unexpected depths. The customers are enthusiastic and really save money, compared to competing systems.

"We produce a wreath ribbon Super Satin 100 mm wide and 80 cm long, printed with metallic gold at 0.90 EUR total manufacturing costs," says HRMTEC Managing Director Roland Mueller. "This is already 40-50% less expensive than when using systems from other vendors," notes Mueller. "And the cost of the wreath ribbon is almost the biggest cost factor," says Mueller further.

And that is why it will get even cheaper: HRMTEC brings shortly its Super Satin Premium ribbon to the market, which costs about one-third of a wreath ribbon of the usual manufacturers. "With our new Super Satin Premium ribbon and our printing system, we produce a wreath ribbon 100 mm wide and 80 cm long, printed with metallic gold for 0.30 EUR total manufacturing costs," says Mueller firmly. "Customers who already have our ribbon printing system in use, are the first to benefit from our new Super Satin Premium ribbon," Mueller adds.

HRMTEC offers with its stamping realistic digital ribbon printing system not only the system with the outstanding print quality and the lowest printing costs, but offers customers the complete ribbon printing portfolio of products to services. Everything from one source, and to have only one contact, many customers see as a great advantage.

HRMTEC goes with its ribbon printing system not only new ways, but also affirms the market leadership in stamping realistic digital ribbon printing.
